Dr. David A. McConnell
Minister of Music

June 17, 2003

To Whom It May Concern:

Immanuel Church recently completed a \$2.5 million building/renovation program. We worked with the architectural firm of AEM Architects, Reading.

Our working relationship with AEM has been a very good one. It began in the fall of 2000. The project actually began in the fall of 2001 and was dedicated in the fall of 2002. To this day the architectural firm continues to work with us as we work through the final details of the "punch list."

The architects assigned to the project have always been very, very available, ready to follow up on questions and issues raised. They have been very detail oriented, conscientious, more than helpful, and very personable.

We would not hesitate to recommend them or to utilize their services again.

Sincerely,

Alfred K. Schwerdt
Senior Pastor
