To Whom It May Concern:

It is pleasure to recommend to your attention Adams, Eisenhower and Meckley, Inc. when considering an architectural firm for your next school project.

The Oley Valley School District has had a variety of K-12 projects which have been done in phases. In each phase we have conducted a very rigorous and comprehensive search for an architecture firm. Each time we have selected AEM, Inc. to lead our project.

We note their professionalism, organizational ability, knowledge of our district and the project, attention to detail, and their ability to stay within budget. We have been impressed with their reputation through the extensive references we obtained as well as their experience in handling projects of all sizes.

When you have a team approach to a project, it was helpful to someone like me, to be able to pick up the telephone and receive an answer immediately or in a reasonable amount of time. It was comforting to be able to rely on the architect throughout the project.

I feel AEM's people are what makes our projects work. They promote a team environment to work together through all phases of a project. In short, Adams, Eisenhower, and Meckley Architectural Firm has proven themselves to be an outstanding organization, and one you would do well to consider seriously for your next project.

If you have any questions, I would be happy to discuss them with you.

Sincerely,

A handwritten signature in cursive script that reads "Jeffrey F. Zackon".

Jeffrey F. Zackon, Ed.D.
Superintendent
