Dear Mr. Istenes,

As we approach the end of this school year, I wanted to thank you for the excellent job AEM Architects did with the Pennell renovation.

From the beginning of the project, you actively involved me and my staff. As a result, we have a beautiful building that meets the needs of our educational program.

As the project began, you were excellent at keeping me informed. I felt very comfortable contacting you with any questions. You always responded back quickly.

Once we returned to our renovated building you continued to keep me apprised regarding punch list items and other information I needed to share with the faculty.

In my career, I have now been involved in four building projects. Your firm was only involved with the one here at Pennell. I have nothing but positive comments to make about this project. I certainly cannot say that about the other three.

We are so proud of our new building. Again, it has been a pleasure to work with you.

Sincerely,

Kathleen A. Recchiuti
Principal
