Office of the Superintendent

To Whom It May Concern:

I am pleased to write a recommendation for Adams, Eisenhower & Meckley Inc. Architects (AEM). AEM has worked with the Tulpehocken Area School District for the past seven years. I have personally been involved with them for approximately 5 years. They started a building project just before I became superintendent at Tulpehocken and they have been very cooperative and supportive towards our district.

AEM are skilled in all aspects of the Plan Con process and all the necessary Labor and Industry regulations. Any questions or concerns I or the district had were addressed in a timely and professional manner. They were always available for school board meetings and also accompanied me to Pennsylvania Department of Education for any issues that needed to be addressed concerning our building project. They inspected the building site on regular basis and facilitated job conferences.

We felt very confident in the services that AEM have provided. We used AEM services for several other projects, such as: two major roof projects, refinishing our tennis courts and the high school auditorium stage. AEM would write the bid specifications, advertise the bid, be at the pre-bid meeting and also open the bids and make recommendations for the various projects.

As you can see by my experience with AEM, I believe they would do a fine job for any school or organization they would be involved with. I would highly recommend this firm.

If I can be of any further assistance, please feel free to contact me at 610-488-9363.

Sincerely,

Augie Grant, Ed.D.
Superintendent of Schools
